

# Amazing Digital Business Card Technology

Brought to you by

&

You are now riding the HiWave

## What is HiWave?

HiWave is the best way to connect in the real world. Get started by tapping your phone on a HiWave sticker, and instructions will guide you to input your contact info. You can then link your profiles from the social platforms you choose whether it's; Facebook, Instagram, Twitter, LinkedIn, TikTok, or others. Your new contacts will now be able to easily add you across these platforms, by simply tapping their phone to the sticker on the back of yours. Again, you control what your new contacts will see on your HiWave profile! It's meant to bring authenticity back to our "social networks". And it's the gift that just keeps on giving. Once you put this sticker on your phone, you're never going to miss a connection again.

| QUANTITY | PRICING/STICKER |
|----------|-----------------|
| 1        | \$25.00         |
| 5        | \$20.00         |

## How Does HiWave Work?

1. Order customized HiWave stickers from Barker Specialty.
2. Tap your HiWave to your phone to download the app. **Don't apply your sticker yet.** You don't need the app to share your info but you do need it to set up your profile.
3. Complete the setup process. **Wait until the app tells you to apply the sticker!** It only takes a few minutes.
4. Now, you can meet new people! **No more physical business cards!**

You can customize any sticker to whatever you want!
